Summary

To work in a learning and challenging environment, utilizing my skills and knowledge to be the best of my abilities and contribute to the growth of the organization as well as my personal growth. Take a look at my GitHub profile for more projects.

Projects

1.NotesTaker (Internship Project):

• Built a Web-based NotesTaker application. Where, we can **store, add, update, edit and delete** the note.

• Got exposure to Backend technologies.

• Technologies used: React.js, Node.js, Express.js, MongoDB **(MERN)**.

2.NewsApp:

• Build a news reading application. It'll give you *a daily dose of news with Headlines and description*.

• Learned how to **connect external API with Front-end**.

• Technologies used : **React.js, News API**.
